

# How to...

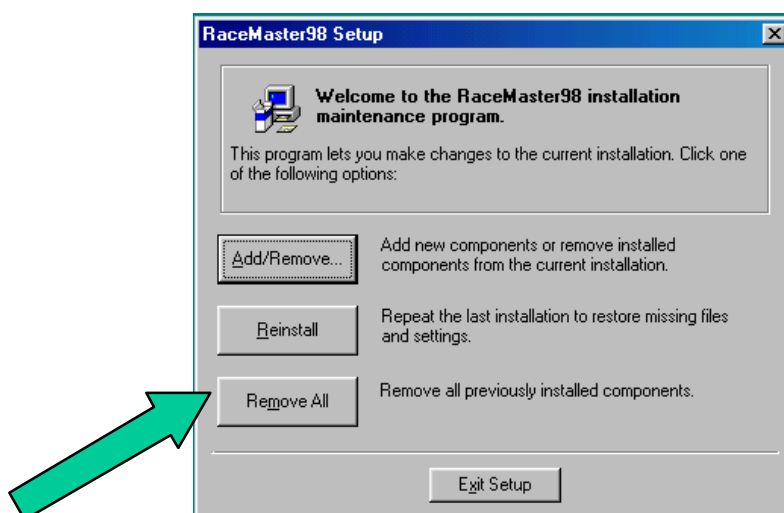

## Uninstall RaceMaster98

---

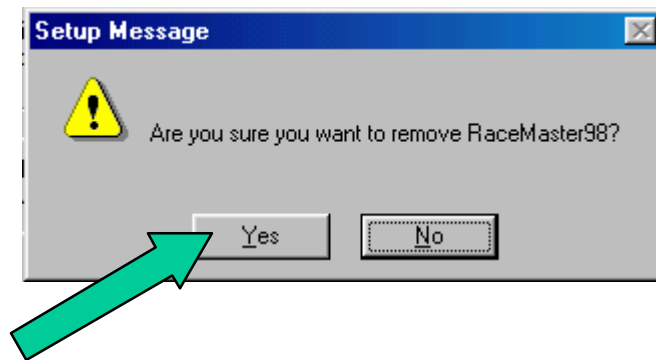

1. Click on "Start" then highlight "Programs", "RaceMaster98" and then click on "Setup RaceMaster98".

2. Now click on the "Remove All" button

2. Click on the "Yes" button

3. Now follow the instructions and re-start Windows. When Windows has re-started, you can then proceed to install the new version of RaceMaster98.
